Full Professional Proficiency

INTERESTS

Singing · Crossfit · Dancing

EDUCATION

B.Tech
Rajiv Gandhi Proudyogiki Vishwavidyalaya

08/2018 - 05/2022

Courses
- Computer Science & Engineering

XII
Bal Bharti School Rewa (M.P)

04/2017 - 03/2018

Courses
- PCM

X
Bal Bharti School Rewa (M.P)

04/2015 - 03/2016

TRAINING & INTERNSHIP

Full Stack Developer-Python
3RI Technologies

10/2023 - Present   *Pune*

Achievements/Tasks
- Leveraged MySQL as the primary database management system to design, develop, and test robust databases, ensuring efficient data storage and retrieval for various projects.
- Utilized Oracle tools to enhance database management efficiency, implementing advanced features and optimizations to meet project requirements effectively.
- Applied C and C++ programming languages to develop and refine core software features.
- Implemented Linux-based solutions for showcasing expertise in shell scripting and command-line utilities for streamlined operations.
- Developed dynamic and user-friendly websites using a blend of HTML, CSS, and JavaScript, focusing on responsive design principles and interactive user experiences to enhance web presence and functionality.
- Applied Python programming language extensively to implement python core concepts, demonstrate proficiency in object-oriented programming.
- Participated in cross-functional teams to collaborate on project planning, execution, and troubleshooting, contributing technical expertise in database management, programming, and system administration.
- Expanded expertise in web development by mastering Angular framework, proficiently integrating it into projects to create dynamic, interactive, and scalable web applications, enhancing user experiences and optimizing frontend performance.

PROJECTS

Interior Design website using HTML, CSS, JS. (01/2024 - 02/2024)

Personal Portfolio Website. (03/2024 - 04/2024)

Capturing blue tooth data packets using active blue tooth devices (01/2022 - 05/2022)
